

Ring Sizing Made Easy

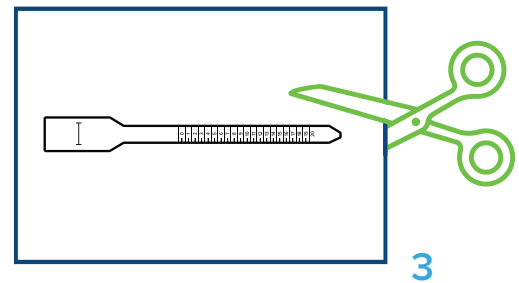

1 Download the ring sizing template.

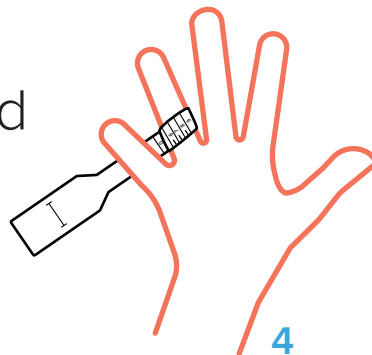

2 Print it.

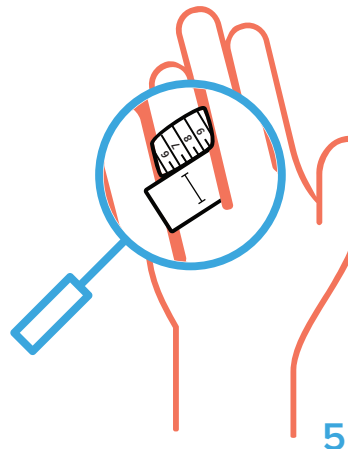

3 Cut it out.

4 Wrap it around your finger.

5 Find your size.

Don't have a printer?
Don't worry.

Here are steps to do it without the printed template.

- 1** Cut a string that is about 6 inches long.
- 2** Fold the string around the base of the finger, just below the knuckle.
- 3** Mark where the string ends with the pen.
- 4** Place the measured string on the ruler with the area marked on your right.
- 5** The number closest to the pen mark is the circumference of the ring in millimeters.
